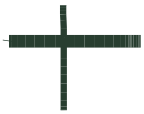
PDF Studio Demo

PDF Studio is a VS Code extension for reviewing PDF documents directly inside the editor.



What to Try

- Select text naturally
- Highlight a key sentence
- Add a comment to a selected phrase
- Search for repeated terms like `highlight`, `comment`, and `workflow`
- Use the outline and page navigation tools

Sample Review Text

PDF Studio improves PDF review workflow by combining annotation, highlight, comment, search, and navigation inside VS Code.

This sentence is useful for testing highlight behavior.

This sentence is useful for testing comment placement.

This paragraph is long enough to wrap across multiple lines when converted to PDF, which makes it useful for testing multiline text selection, comment anchors, and highlight alignment in a compact demo document.

Quick Table

Feature	Demo
Highlight	Ready
Comment	Ready
Search	Ready
Navigation	Ready

Code Sample

```
const tools = ['select', 'highlight', 'comment', 'annotate'];
```

Search Terms

Search for: PDF Studio, highlight, comment, workflow.
